| N/A | | | | | | | |

Donor Information is self-reported and privacy laws prohibit CGT Global from independently verifying the accuracy of this information. As such, CGT Global does not warrant the accuracy of the Donor Information. Product was obtained using our Institutional Review Board (IRB) approved consent forms and protocols. Please contact our Quality Assurance and Regulatory Affairs Department for approval documents and quality related inquires.

Screenings

| | | | |
|-------------------|------------|----------------------------------|------------|
| HIV | Select One | HLA-A2+ Immunophenotyping | Select One |
| HBV | Select One | Other Screening | Select One |
| HCV | Select One | Other Screening | Select One |
| LCMV - PCR | Select One | Other Screening | Select One |

*For HIV, HBV and HCV a "Negative" result indicates that donor viral testing was found to be negative within 90 days of collection.

*For HIV, HBV and HCV a "Pending" result indicates that donor viral testing was found to be negative more than 90 days of collection and another viral testing was done at the time of collection. If the result is "Positive", customers will be contacted as soon as possible (usually within 48-72 hours of the time of shipment).

Analysis
